WORK OF WIND AND RAIN.

A PENNSYLVANIA TOWN FLOODED AND PEOPLE ROOFBOUND.

The Waters Still Rising and Many Buildings Will Probably Be Destroyed—Reports of Damage Coming from Other Parts of the Country Indicate that the Storm Was Nearly Managed by Wind and Rain.

Uniontown, Pa., July 4.—Between 12 and 1 o'clock last night the Youghiogheny River began to rise rapidly, and at 4 o'clock this morning it was higher than ever before known. The water is now within a few inches of the floor of the Fayette County Bridge, and is still rising. The Pittsburgh & Lake Erie Railroad Company has a force of men at work trying to keep the water from undermining the abutments of the bridge, but it is feared that the structure will be carried away. The Baltimore & Ohio Railroad bridge at Connellsville is also in danger. The Youghiogheny River is higher than it has been for twenty years. The Monongahela River is also rising rapidly. Many people living in the lower portion of the city have been compelled to move their household goods to the upper stories of their houses, and are now prepared to leave their homes at a moment's notice

The Tribune.

TUESDAY, JULY 31, 1900.

It is reported from Manchuria, Germany, that rye is selling there at $1 per root above the price in London, and that bread is $1 per root lower than in the English capital. Urban hospitality are said to range $1 to $1 per root higher. The difference is due to the heavy import duties imposed by the German Government.

The freight rate on tinned beef from Chicago to the East is now 15¢ cents per 100 pounds—perhaps less than half the actual cost. This is a cut of two cents from the figures of last week, and is only one-fifth of the old charge for transportation of canned meat. This is directly out of profits to the packing companies, but it ought to make beef cheap to the Eastern consumer, and even more cheap return to farmed shippers.

An Indian correspondent writes to an Eastern paper inquiring if Julian Thornton is an Indian. He has observed that he is called an "un old Roman," and he cannot understand the significance of the term because it means that he was born in Rome, and consequently is an Italian. Evidently the Easterners will have to be careful how they use their pet names lest they create the impression among the more ignorant of their read and the East he is native Italian. Considering the antipathy that many feel towards Italians just now it might be difficult to overcome their prejudices against "the old Roman" or even to get the natives out of their hands that he is one of them.

The wheat market was firm, with a good local demand at $27 per cent. Storage was unchanged. There was a moderate inquiry for investment securities, and gas bonds were stronger. The stock market opened strong, but turned weak.—The Chicago press cyclists were all stronger early on the bulls of wet weather for grain and higher prices for logs, but became quite weak. Wheat was also lively on foreign orders. As compared with Saturday past and the closing 1¢ more higher, here 7½ cents lower, wheat 1 cent lower, oats ½ cent lower, oats ½ cent higher for cash wheat, one cent, barley unchanged steady, and flaxseed a shade lower for cash lots.

The stocks of grain in Chicago elevators last Saturday evening were 2,212,000 bushels of wheat, 1,000,000 bushels of corn, 1,000,000 bushels of oats, 30,000 bushels of rye, and 20,000 bushels of barley. Total, 11,000,000 bushels of all kinds of grain, against 21,000,000 bushels a year ago. For the week ends the Secretary of the Chicago Board of Trade shows the visible supply of grain in the United States and Canada as 30,000,000 bushels of wheat, 11,000,000 bushels of corn, 4,000,000 bushels of oats, 600,000 bushels of rye, and 200,000 bushels of barley. These figures are smaller than the corresponding week a week ago by 600,000 bushels of wheat and 1,000,000 bushels of corn. The visible supply of wheat for the corresponding week a year ago amounted 1,000,000 bushels.

The suspension last Sat. Harrison in the cases of Lieut. Thomas Harrison (the captain and Major Gaston, in Cromwell's army, who set upon the trial of Charles I., turns out to be erroneous, the supreme evidently having given a out of a confusion of names. Thomas Harrison, the regicide, was a religious fanatic, a bosom friend of Sir John Evans, and evidently close to the main spot. The accusation of Gen. Harrison were caught, following Lieut. Harrison and Gaston, as were connected with the regicide or his family down all the Evans are connected with Sir John Evans or all the Harrisons with Capt. John Harrison. The queen Harrison married a Benjamin Harrison, who was Governor of Virginia when it initiated the Northwest to the area, and a member of the Continental Congress.

Mr. Jerome, the chief of the Special Assessment Bureau of the City Government, is responsible for saying that the increase in the appropriation for the bureau this year over the appropriation for last year is but $2,170, and the increase is justified on the ground of natural increase of the business of the bureau. The fact is that the increase is $8,170 (since $6,000 last year to $7,00 this year). There is no parallel for such an increase in the bureau or any other department or bureau. The Special Assessment Bureau, it may be questioned, was a period ago under the Harrison regime, and its chief was a sort of protégé of Mr. Harrison. It got everything it asked for during Harrison's time. Why this increase of nearly 40 per cent under the Republican Administration? Was it intended for future campaign uses by the great pulpit-thumper and letter-writer?

The United States Consular Circulars, in a report to the Secretary of State, announces that 81,000 emigrants will come from Europe to this country this year. The largest number ever known to this country was in 1882, the emigration that year amounting to 788,992. Last year it reached 448,572. It will probably increase in the future, as the great Northwest is offering fresh inducements for the coming of emigrants. They will always go to colonies in the West, no matter how many come. They are a sturdy, robust, industrious, hard-working people, who become Americanized easily and quickly, and seldom form other nationalities, strictly for home. As not all flow into the cities, thereby adding to the ranks of the unemployed, and seek work in departments of labor already overcrowded which they are not fitted to perform, but go out into the newly developed regions of the West, where their labor is applied to agriculture mechanics. Few of them remain in the overcrowded centers of population, and thus they never become a burden upon the community or a danger to American industry. They do not come into such competition with American labor as to lower the average standard of wages. The [illegible] is not that we have too much immigration, but that we have too much the imposition of the inconsiderate and undesirable kind. The Scandinavians, Germans are not open to the criticism. That are of the thrifty, industrious class that we want, and they have become already a powerful factor in the development of the resources of our Northwest where their energies are placed.

The Pennsylvania Forestry Association has addressed a circular to the Pennsylvania Legislature asking it to advocate a certain bill now pending in the Senate as a substitute for the bill which has passed the House for the protection and preservation of forests on the public domain. Considering the necessity of the course of the association and approving its pursuit to preserve the American forests from destruction, it says nothing against saying a hearty for the destruction of our remaining forests. Apparently the members are blind to the fact that it is the Pennsylvania destroy which is largely responsible for the anomaly which the are about to preserve the remnants of the American forests. What Pennsylvania is spasmodically about now instruction. It would still continue offering a tariff bounty of $1 to $2 for every 1,000 feet of lumber left. The policy which is advocates necessarily implies the preservation of Canadian forests by granting a bonus for the rapid destruction of our own. Pennsylvania rails for the continuance of this policy, which has wiped out the forests of Pennsylvania and is invading the lake region forests, and at the same time sets out for forest protection by certain means. The Chicago Tribune has always favored the course of the preserve on the American forests. What Pennsylvania is now doing is the worst action of the preserve on the American forests. What Pennsylvania is now doing is the worst action of the preserve on the American forests. What Pennsylvania is now doing is the worst action

Dress the Hair
With Ayer's Hair Vigor. It cleanses, beautifies effects in the most lasting perfume compared to the ordinary toilet use. It keeps the hair soft and silken, preserves its color, prevents it from falling, and, if the hair has become weak or thin, promotes a new growth.

"In restoring the original color of my hair, which had entirely changed gray, I used Ayer's Hair Vigor with perfect success. I cheerfully testify to the fact."

Efficacy
of this preparation, Mrs. C. E. Smith, Mrs. Alexandria, Va.

"I was afflicted some three years with scalp disease. My hair was falling out and what remained turned gray. I used Ayer's Hair Vigor, and in a few months the disease in my scalp was entirely cured, my hair restored to its original color, and I have enjoyed its use ever since."

WEAK MEN

THE CITY.

PERSONAL.

Dr. and Mrs. J. A. Willard have gone to the West Adelaide and the Harlan to spend the summer.

Gen. Lloyd S. Pelz will be in the city Friday and will speak at the Prohibition mass meeting that evening.

Chief Clerk John Eberhart of the Sheriff's office, who broke an ankle a week ago, was able to be out and can take charge of his office again this morning. He was assisted to his office by Deputy Sheriffs Kelly and Hoyt.

Mrs. Mary Ann Bickerdike, wife of Charles Bickerdike, the well known capitalist, died yesterday morning at her residence, 1000 Lake Shore drive, after a long illness. The funeral services will be held at the residence at 10 o'clock this morning. Interment will be private.

Mrs. J. Morton is about to erect a fine block of flats on the southeast corner of Michigan av. and Eighteenth street. They will be of pressed brick and stone, and will contain all modern conveniences. The plans have been prepared by Architect Frederick Perkins, and the contract has been awarded to Contractor Thomas Hall.

Business streets are No. 624, upon record, was made at the Southern street crossing by the 20 of the Clark street line. The injured man was taken to the Alexian Brothers' hospital, where it was found that his injuries were not serious. He was able to go to his home yesterday morning.

Chief Clerk John Eberhart of the Sheriff's office, who broke an ankle a week ago, was able to be out and can take charge of his office again this morning. He was assisted to his office by Deputy Sheriffs Kelly and Hoyt.

Mrs. Mary Ann Bickerdike, wife of Charles Bickerdike, the well known capitalist, died yesterday morning at her residence, 1000 Lake Shore drive, after a long illness. The funeral services will be held at the residence at 10 o'clock this morning. Interment will be private.

They will be of pressed brick and stone, and will contain all modern conveniences. The plans have been prepared by Architect Frederick Perkins, and the contract has been awarded to Contractor Thomas Hall.

IN GENERAL.

The West Park Board at its yesterday's meeting appropriated $1,000 for improvements in Union Park.

By a typographical error in Sunday's Tribune in the marriage notice of Agnes Dunn the date was given 1897 instead of 1898.

"I. D." has contributed $1 to the Lake Shore fund, for which credit has been given and will be duly acknowledged by The Tribune Fresh Air.

The remains of Mrs. L. C. Hale, who died recently in Germany, reached the city Saturday and will be held privately. Dr. Hale to-day, Mr. Hale, who had also arrived, attended the body.

The temperature yesterday, as observed by Hasbrook, optician (Tribune Building), was as follows: 6 a. m., 68° above zero; 9 a. m., 70°; 12 m., 72°; 3 p. m., 76°; 6 p. m., 74°; 9 p. m., 72°; maximum, 76°; minimum, 68°.

John Wilson, acting as an ignoring Chicago & Northwestern train yesterday morning, dropped off cleverly in front of an oncoming train at Clybourn and Kinzie streets. He was run down by the train and killed. He was 50 years old and lived at 1000 Lake st.

Patrick Hayes, the Democratic leader, and Gen. Wm. Lee Hamilton have each published letters in the Irish World denying the statement that Hayes is a Republican. Hayes says he has never voted anything but the Democratic ticket, and Hamilton declares that he is a Democrat and has been since 1856.

Chief Justice Fuller was taken ill yesterday morning at his residence, 1000 Lake Shore drive, after a long illness. The funeral services will be held at the residence at 10 o'clock this morning. Interment will be private.

Mrs. J. Morton is about to erect a fine block of flats on the southeast corner of Michigan av. and Eighteenth street. They will be of pressed brick and stone, and will contain all modern conveniences. The plans have been prepared by Architect Frederick Perkins, and the contract has been awarded to Contractor Thomas Hall.

ROYAL BAKING POWDER

ABSOLUTELY PURE.

For quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cakes, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. R. A. Witz, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is eminently pure, for I have as found it in many cans made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of its cases, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

"Dr. ERNST A. WITZ, Ph. D."

U. S. Government Chemist.

TUESDAY, JULY 10, 1888—TEN PAGES.

POLITICS RULES THE DAY.

APPOINTMENTS BY THE PRESIDENT GREATLY CRITICISED.

A Row with a Record Due to Make Way for a Good Democrat—A Good Word for Judge Cole's Son Chief Justice Mc-Cook's Successor Makes the Senate—Mr. Adams' Great Reputation—Other Capital Gossip.

WASHINGTON, D. C., July 9.—[Special.]—Much feeling was shown [illegible] over the Senate having now power [illegible] confirmation of Mr. Thomas L. Casey to be Chief Engineer with the rank of brigadier-general. The feeling grows out of the fact that Col. John G. Parke, now engineer officer of the District of Columbia, and who has been in charge of the Washington aqueduct, is the senior officer of the Engineer corps, and the seniority rule has been in force with only the rank of a brigadier-general. It was known that Col. Parke's services in the late war were distinguished and conspicuous, while Col. Casey's career during the same period was limited to engineering work in the rear. Knowing this the committee [illegible] Parke's name, but [illegible] Casey. The latter was then appointed by the President. The confirmation of Col. Casey over the head of Col. Parke, added to the fact that the latter's name was not even mentioned in connection with the appointment, has caused a great deal of feeling among the friends of Col. Parke, and the matter is the subject of much comment. Col. Parke's petition to the President, asking for the appointment of Col. Casey over his head, is considered one of the most remarkable documents of the kind ever presented to the President. The petition is signed by a number of prominent officers of the army, and by a large number of civilians, including Senators Sherman and Hoar, Representatives Dingley, Reed, Frye, Boutelle, Cutcheon, Hitt, Springer, Cannon, Cox, Randall, Morrison, Mills, Carlisle, Hewitt, Bland, Blount, Wheeler, Breckinridge, Wilkinson, Lanham, Culberson, Reagan, Crisp, Candler, Wilson, Outhwaite, Hall, Hatch, Lawler, Lowry, Oates, Stockdale, Turner, Wise, Tucker, Hemphill, Dibble, Kilgore, Blanchard, Lewis, Hooker, Stone, Kyle, Hooper, Hopkins, Hutcheson, Kelley, Mills, Ellis, Ellsbury, Ermentrout, Fuller, Gay, Gibson, Gillespie, Gunter, Haynes, Herbert, Hunter, Lee, Lore, Maish, Martin, Mason, Mayer, Mills, Moore, Neal, Owen, Pendleton, Rayner, Reese, Rogers, Sayers, Shaw, Shively, Simmons, Snyder, Stahlnecker, Stewart, Taylor, Tillman, Turner, Wellborn, Wilkins, Williams, Wilson, Wise, Yoder, Young, Zachry, Zimmerman, Bacon, Bankhead, Barnes, Bayne, Beltzhoover, Bennett, Bergen, Bingham, Blackburn, Bliss, Bowden, Brady, Brawley, Brown, Bunnell, Burnes, Caldwell, Campbell, Carleton, Carter, Chace, Chapman, Clardy, Clements, Cobb, Cockran, Cooper, Cowles, Crain, Crawford, Culbertson, Cummings, Curtis, Dargan, Davidson, Dawson, Dockery, Dorsey, Dunn, Elliott
